VVV VVV VVV 25X1A

HIGH SPEED STATION WAVERING ACROSS FREQ GAINS IN STRENGTH AND TENDS

25X1A

TO COVER QRK READING OF DROPS TO 1-2 THEN REBUILDS TO READI-
BLE SIGNAL.

KEYS OK WITH BUG AND HAND KEY

USING ANTENNA W 2 I HOPE ANTENNA 2 I THINK IS WHEN IT IS CONNECTED
TO LOWER RECEIVER OF THE TELETYPE BAY M IT IS THEN THAT
I GET STRONG SIGNAL. TRIED OTHER ANTENNA NUMBER 1 IT WAS AND
NO RECEPTION ONLY QRM

25X1A

ANTENNA 2 IS ON BEARING OF 51 DEGREES . DIRECTION 64

25X1A

DEGREES . OVERLAP OF ANTENNAS 2 AND 3 WOULD GIVE GOOD COVERAGE OF

I THINK AS THEY OVERLAP JUST ABOUT AT 61 DEGREES
WILL TRY TO GET ENGINEERING TO OK HOOKING OF ANTENNA 3
TO MULTICOUPLER SO CAN BE USED

[] 2315-2330Z QRM 1-2 QRK 4 QSA 4

PRESS STATION PREVIOUSLY HEARD UNHEAR THIS TIME 2325Z

PRESS STATION LURKING IN BACKGROUND NOW AND HEAVY QRM LIKE DISK COMING
OVER BAND PASSING THROUGH AND THEN SWINGING BACK IN

25X1A

AT 2328Z [] AT 2330

25X1A

[] 0015-0030

QRM 1-2 QRK 4/5 QSA 4/5 QSA 4/5

25X1A

PRESS STATION GOING WIDE OPEN IN BACKGROUND

[] QSB SLIGHTLY QSB NOT TOO BAD. ALL BACKGROUND STATIONS

25X1A

HAVE CLEARED OUT ONLY [] ON AIR. QRM HAS DROPPED OFF ALMOST TO NIL

25X1A

0028 [] 0030

THIS JUST ABOUT THE SAME I TOLD YOU OVER PHONE

LOOKS GOOD TO ME THOUGH. HOPE IT WORKS OUT
